

How to manually deliver a shipment

In the event a shipment is not automatically delivered in the system, users can proceed as follows:

1. In the Info tab, select **Deliver**.
2. In the popup window, select the applicable *date and time* or *reset to now*, to deliver at the current timestamp. The default will show the current timestamp.
3. Click **Confirm**.

The screenshot shows the 'Shipment name/reference' page with the 'Info' tab selected. A red box highlights the 'Deliver' button in the left sidebar. The main content area shows 'Shipment Description', 'Shipment Status' (Shipping), and a 'Loggers' table with two entries.

ID	Status	Data status	Last sync	Wake-up interval	Reference	Description	Action
3012D6DD	Shipping	Last comm. ok	31 minutes ago	1 hour (in 50 min)	123456789	Pallet 2	...
30170968	Shipping	Last comm. ok	a minute ago	1 hour (in 36 min)	123456789	Pallet 1	...

The screenshot shows the 'Deliver shipment' popup window. A red box highlights the date and time selection area, which shows 'Apr 24, 2024 5:03 PM'. Below the calendar, the time '17:03' is displayed. A red box highlights the 'Confirm' button at the bottom right.
